By Associated Press.  
LONDON, June 14.—Although the French would appear to be unrelenting in their offensive work which is setting them slow progress in North-eastern France, the situation in the eastern arena of the war, where the Austro-Germans are straining every nerve to deliver a crushing blow to the Russians, remains of the utmost importance. No confirmation has yet been received of the report that the Austro-Germans have reoccupied Zurek, but further to the south they are pressing the river Taler. Not for months past has there been such general activity on the eastern front. Checked at the center of the eastern line, the Austro-Germans have developed an offensive on both wings at the same time and they are starting another battle in Poland to the north of Trawnoy. There is considerable fighting going on at the eastern time in the Baltic provinces, so it may be said that the Austro-Germans are at grips once more from the Baltic to the Rumanian frontier.

The point which the Russians have been making recently in Galicia indicates to British observers that their shortage of ammunition has been overcome. It was this shortage, according to the belief here, that held the Austro-Germans last month to a cease-fire in the east. In Greece the followers of former Premier Venizelos who fled because Greece would not enter the war on the side of the allies, seem to have the upper hand judging from the early returns of the general elections held in that kingdom. Indications of the policies of M. Venizelos may have a bearing on Greece's future course of action.

**GERMANS DRIVE RUSSIANS  
TOWARD GALICIA FRONT**

BERLIN, via London, June 14.—Official announcement was made here this afternoon that General von Mackensen has occupied the Russian positions along the entire front in the eastern arena of the fighting from Gornik to Stenawa. These places are in Galicia. Stenawa is 15 miles north of Jaroslavl on the river. This is the second day of the advance.

"Without the aid of war," the French suffered a severe defeat on the front between Iwowa and Aras. After the enemy's columns, which were previously making an advance by storm, had been repulsed several times in the course of the day by our artillery, strong enemy attacks in those formations were begun. The fighting was particularly fierce on both sides of the Loretta hills and on the front of Noville Boelincourt. Our opponents were repulsed everywhere with heavy losses. All our positions are firmly in our hands. A number of minor attacks by the enemy on the Yser canal were repulsed.

Eastern theater of war: In the neighborhood of Kozle, northwest of Shvill, a few enemy's positions were taken. Southwest of the road from Marmande to Kovno our troops took the first Russian line by storm. Southwestern theater of war: General von Mackensen began an attack over a line extending 25 miles. Starting from their positions at Gornik, northwest of Jaroslavl, and at Stenawa, the enemy's positions have been taken along the entire front of this front. Sixteen thousand prisoners were taken yesterday. The incident caused considerable excitement.

**CHICAGO TRANSIT SYSTEMS  
TIED UP BY BIG STRIKE**

Million and a Half of People Walk, Motor or Use Steam Trolleys; Not a Street Car Moves.

CHICAGO, June 14.—Chicagoans, approximately 1,500,000 of them walked, motored and used steam roads to their work today. A strike of 14,000 street car employees went into effect at midnight last night. Not a wheel on the 1,310 miles of track of surface and elevated lines turned after a stroke this morning, when the last crews took their cars into the yards.

It was the first time in a generation that all street car service in Chicago was completely tied up. The strike was carried out without any disorder, according to early reports. Seven hundred policemen were on guard at the various transfer points throughout the city to watch the property and to prevent crowds from congregating. The men cheered as they left their cars.

Mrs. Ella Plugg Young, superintendent of public schools, asserted that all the schools would be made to continue the schools without interruption, although the problem of transporting 2,000 teachers gave grave concern. Arrangements to furnish 5,000 strike-breakers to operate cars and guard property were put into operation today. Agents of the two electric lines have arranged, it was said, to provide food and sleeping quarters in several large hotels. Employment agencies did a record breaking business in procuring men for strike-breaking duty.

Harriet Hall, sample rooms and even the roofs of large downtown hotels have been converted into sleeping quarters for nearly 15,000 persons who will be obliged to live near their places of business during the strike. The demand for cots to be placed in office buildings was exceedingly high. Thousands of persons have planned to sleep in their offices. Managers of theatres within the business district announced that they would close under the strike was possibly settled. Thousands of persons have planned to sleep in their offices. Portuguese Give Alderman Task of  
Settling Complicated Case.  
A complicated case was brought before Alderman Eugene O'Donovan of the West Side Saturday when Willie Allen made information against a former partner, Steve Edusson, for fraudulently disposing of a horse and wagon that was owned between them.

The two men bought a horse and wagon for \$108, intending to go into the trucking business. Edusson, however, sold his interest, which would amount to \$51, to Steve Sand for \$58. The latter paid him in the form of a note and had Edusson, who could not read English, sign a note that gave the whole outfit to Sand. Then Allen prosecuted his former partner.

Admits Killing at  
Republic.****COUNSEL REACHES AGREEMENT****Commonwealth Accepts Plea in Less-

Cases are Tried When the Second  
Week of June Court Is Begun.**

Special to The Courier.  
UNIONTOWN, June 14.—Alphonse Zamorelli, arraigned today for the murder of Tony Lockhart at Republic on October 15, last, entered a formal plea of guilty to voluntary manslaughter today. The plea was accepted by the commonwealth and the previous plea of not guilty, made by Zamorelli when first arraigned, was withdrawn.

Zamorelli was convicted some weeks ago of a serious offense against Mary Lockhart, the 18 year old daughter of the man he has admitted slaying. It was alleged by the commonwealth that Lockhart was slain by Zamorelli when taking him to look for his defense against the charge of manslaughter.

Only minor cases were taken up in court this morning when the second week of the June criminal term began.

Frank Spaw and his son, Frank, were placed on trial for assault and battery upon Joseph Kampmiller at a point near the Summit.

Cliff Hildebrand was arraigned on a charge of assault and battery preferred against him by Mrs. Annie O'Phant of Fayette City.

Judge E. H. Ruppert did not appear in court this morning when the trial of other cases on the list until a part of the afternoon session on the murder case had been excused.

An unusual feature of the court session today was the failure of either Judge Van Swearingen or Judge Ruppert to hold down any cases. Usually at the beginning of each week of court several divorces are handed down, but neither judge had anything today.

Meeting of General Committee to be held at Chamber of Commerce Rooms at 8 o'clock after which Teams Will Interview "Prospects."

In teams of six or more, members of the Business & Professional Men's Credit Association will canvass the city tomorrow in a whirlwind campaign to secure new members. The campaign will last but one day, but by aggressive work the association hopes to add many individuals and firms to its list of members for the improvement of business and civic conditions in Connellsville.

A meeting of all members who are to compose the canvassing committee will be held in the Chamber of Commerce rooms at 8 o'clock. Captains will be named and the teams assigned to districts. A long list of "prospects," including men who ought to become affiliated with the association has been prepared. The committee will interview everyone on this list, armed with arguments, showing what the association has done and what it proposes to do in the future.

Since the Chamber of Commerce dropped out of active participation in the promotion of the city's civic welfare, the Business & Professional Men's Credit Association has taken into itself the task of being the "live wire" organization and much good has been accomplished.

The association was originally formed as a credit association but it broadened out and is considering problems that must be solved if Connellsville is to advance. For this reason, the members believe, every man who believes in Connellsville should join.

**SWIMMING SEASON ON**

Youngsters Find the Water Warm  
Enough for a Plunge.

The swimming season was officially opening Saturday afternoon when two West Side boys took their first dip in the water at the Pennsylvania railroad bridge. Although the water was chilly, it started the swimming fever and almost every boy who sought relief from the heat of the day was in the water by the time the sun had set.

The ball dam on the West Side is the most popular "swimming hole." Boys have been cooling the water at this point for the last two weeks, waiting until it is warm enough to warrant a good time when the first dip is taken.

"Angie" boys, although they do not have a river, do have a big run. A deep spot in Connellsville has been named and a large hole is the result. Plenty of water has been furnished by the late rains.

Some of the bathers are lamenting the fact that those precious suits cannot be found. Some of them are not bothering about it at all.

South Connellsville, Connellsville, "beach" is assured of more popularity this year than ever. Those who did not get to enjoy the Sunday bath last summer are purchasing suits for this year's season.

All the stock in the store had been sold except a small stock of canned goods and a few boxes. These will be sold by Mr. Whiteley to cover some of the rent due him. Before leaving Mrs. Davis tried to pawn a watch for \$10.

A note was left on a sewing machine saying it was owned by the Sinker Sewing Machine Co. The key to the store was returned to Mr. Whiteley the next day by mail.

COPPERHEAD NIPS HIS LEG**

Spence Hollow Lad Victim of Reptile;  
South Side Child Tries to  
Kill One.

The intense heat of yesterday was responsible for considerable activity on the part of the snakes in this section. Hikers reported having seen reptiles of various sizes and kinds, but the only serious result of these encounters was at Spence Hollow. While walking past Geary school, in Tipton township, Carl Geary, 8 years old, was bitten by a copperhead. The snake's fangs found a mark in the lad's leg. Dr. A. J. Colborn was summoned and dressed the wound. Although the boy was very sick for a time and his leg swelled considerably, it is thought that he is out of danger.

When Mrs. James Deat of South Pittsburgh street went into the back yard of her home last evening she found her little boy, Dallas, trying to run over a black snake with his tin wagon. Ambulance was summoned and Lee Solson and Mrs. Sol Palmer killed the reptile. The little boy was having lots of fun trying to run the snake down. The reptile did not show fight, but neither did it try hard to escape until attacked by the neighbors. It was quickly slain.

A further snake which measured five feet in length, was discovered by some of the Nigger Hill boys yesterday afternoon in the field of the Davidson farm. It was killed after a brief fight.

**CHICKEN TALE DOUBTED**

Mayor Declines to Investigate Alibi  
Offered by George Genus.

Discovered at 3:45 o'clock Sunday morning with three chickens under his coat, George Genus explained to Patrolmen Gann and Francis that the fowls had been given to him by William Templeton. His story was so plausible that the cops allowed him to go, but on thinking it over, they decided to investigate further. Questioning of Mr. Templeton then discovered that he had given no chickens to anyone.

Genus was arrested later at his home at the corner of Meadow lane and Orchard street in act of picking the chickens. When arraigned before Mayor Marlette he declared he had bought the fowls for \$1.20. He was directed to be held while the matter is investigated further.

**REMODELING HOTEL**

Yough House to be Thoroughly Re-  
modeled by Proprietor.

Arrangements for the remodeling of the Yough House are being made by Proprietor S. M. Goodman. Some work has already begun but the real job will be started by July 1. The hotel will be kept open while the remodeling is going on.

The contract for the decorations has been awarded to H. H. H. and the Aurora Company will supply the furnishings. The dining and writing rooms will be remodeled and refurnished. The office and kitchen will be redecorated in Italian style and the thing will be repainted, repainted, and a new electric light system installed.

All the bedrooms will be furnished with brass beds. After the work of remodeling has been completed the hotel will be in first class shape.

**BUILD MOTOR BOAT**

West Side Men Will Drive It With  
Airship Propeller.

The Yough river will have an added attraction by the end of this week when a motor boat will be launched. The boat will be propelled by an airship propeller. Thomas Whitman and William McCutcheon, of the West Side, have constructed a boat and purchased a motor which will drive it.

The propeller is of the same type of those used on aeroplanes. In length it will be six feet long, and is made of wood. The motor will be fastened to the front of the boat instead of the rear, the propeller pulling the craft.

A 3 1/2 horsepower motorcycle engine has been secured to run the boat.

## MRS. LYON'S ACHES AND PAINS

Have All Gone Since Taking  
Lydia E. Pinkham's Veget-  
able Compound.

Terro Hill, Pa.—"Kindly permit me to give you my testimonial in favor of Lydia E. Pinkham's Vegetable Compound. When I first began taking it I was suffering from female troubles for some time and had almost all kinds of aches—aches in lower part of back and in sides, and pressing down pains. I could not sleep and had no appetite. Since I have taken Lydia E. Pinkham's Vegetable Compound the aches and pains are all gone and I feel like a new woman. I cannot praise your medicine too highly."—Mrs. Augustus Lyon, Terro Hill, Pa.

It is true that nature and a woman's work has produced the greatest remedy for woman's ills that the world has ever known. From the roots and herbs of the field, Lydia E. Pinkham, forty years ago, gave to woman a remedy for their peculiar ills which has proved more efficacious than any other combination of drugs ever compounded, and today Lydia E. Pinkham's Vegetable Compound is recognized from coast to coast as the standard remedy for woman's ills.

In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health—many of them openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound; and in some cases that it has saved them from surgical operations.

## Picnic Drinking Water

Little Talks on Health and Hygiene by Samuel G. Dixon, M. D.  
L. D. Conant, Minister of Health

The picnic season has begun. Every afternoon spot for miles around in the vicinity of the town and cities will be the scene for picnic makers from now until the first of August.

Almost everybody attends a picnic sometime during the season. Now that the automobile has made even the remote districts readily accessible for city dwellers the number of urban residents who seek an occasional day's relaxation in the country, has tremendously increased.

Nobody thinks of going on a picnic without taking a generous supply of food but few people are so situated enough to carry their drinking water some spring, brook, or lake water.

This fact will be sure to supply this essential. As a result of this fact, the elimination of the source of water supply, there are hundreds of picnic makers who contract typhoid fever every season.

The period of the year when typhoid fever is always most prevalent is that at the end and immediately following the vacation season. While this is not alone the result of picnics, they unquestionably play an important part in this annual toll of illness and death.

It is not a difficult matter if one is taking an automobile to carry a supply of drinking water from a source that is known to be uncontaminated. Moderate priced vacuum bottles or other forms of containers can be secured which will keep the water cool.

If a local water supply with which one is unfamiliar must be used, boiling the water for twenty minutes will make it safe. Unfortunately, clear water is by no means always pure water. Many a sparkling, crystal clear, roadside spring is open to pollution and no matter how attractive the surroundings, there may appear our most needs follow it to its source.

To be certain that it is free from contamination. So for safety's sake carry your drinking water in the picnic basket.

## LET'S NOT FORGET!

The American flag is much in evidence.

On this day the nation harkens out its banner so that all may see its flaming glory and feel its patriotic impulse.

Amid the busy work of building a great industrial empire the American people are apt to forget the lesson of national sacrifice involved in the building of the Republic.

The threat of war, vague and improbable though it is, brings back with sudden and startling distinctness the full significance of this day. We are reminded that it is a day set apart, not only to display the flag, but to recall the circumstances under which it was conceived and the manner in which it was dedicated to the cause of liberty and freedom.

Over a century ago, when the American Colonies declared their independence and maintained it, this was the banner under which George Washington and his ragged Revolutionists fought six long and weary years against the trained troops of Europe and the painted savages of the forest. It was a desperate struggle against overwhelming odds, and it was won because the American spirit of independence refused to give up its flag.

Later in our history, armed rebellion rose against the flag and sought to supplant it with another. Four years of fratricidal strife such as the world had never before witnessed settled that issue finally in favor of the flag and the Constitution of 1776.

Let us forget the patriotism and sacrifice of the supreme struggle which made and cemented the Union, let us look upon the flag and recall all the things it stands for.

Let us forget that a nation devoted to the highest and noblest purposes of humanity cannot endure if its pure spirit of self-sacrifice be quenched in the muddy stream of material ends, but let us renew our devotion to the flag and consecrate ourselves again to the cause it represents.

Let us forget that patriotism and public spirit are necessary ingredients in the fibre of such a nation as ours, but let us not fail to inspire in the minds and hearts of coming generations the high character and heroic deeds of American statesmen and American soldiers.

First among the patriots prominent among the Fathers and Builders of Western Pennsylvania in Colonial times, one who fought with Washington against the British and was buried by the Indians at the stake; one whose home was here on the banks of the Allegheny and whose memory is yet honored in Pennsylvania by a park or stone.

Let us forget the glorious example of this first Citizen of Connelville who helped to put the thirteen stars in the first flag of the Nation, let us urge upon the Council to accept the open offer of State compensation and have set up a proper public marker in our most public place commemorative of his patriotic achievement as a soldier and a statesman.

Let us forget, too, and let posterity forget the lesson of his service and his sacrifice.

## THE BOYS ARE BACK.

Not even the distracting influence of a world war in distant Europe has in mind forest the fact that it is time for the boys to get together and once more assume command of the ship of state.

Not only the Republic in the past, but the country generally is convinced that the boys are back. It is sufficient in its management of national affairs, industrially, financially and diplomatically. The Washington Observer, which was a militant Progressive organ in 1914, notes the disbandment of the Indiana Progressive State Committee and the statement that its members will henceforth be found in the ranks of the Republican party, and says:

"The children went so far as to introduce a resolution that the party be disbanded, but it was defeated by a small vote. This was unimportant as no set of men or women party. The very fact that thousands of Progressives all over the country and especially in Pennsylvania are returning to the Republican party, shows that the third party movement has collapsed."

But the movement well served its purpose. It has shown the boys that of those Republicans who united with the Progressive party in 1912 and returned to the old party this year and be in a position to participate in the Presidential campaign of 1916 as well as those next September. The observations made by the State Chairman of the Progressive party in Indiana apply to Pennsylvania in an emphasized form. The Progressives are naturally finding their opportunity in the Republican organization, the leaders of which have recognized the utility of adopting all the best ideas of reform demanded by those who left the reservation in 1912.

A reunited party working for great national issues now, for social justice to this country must and will be a party of service to the people.

That is what a political organization ought to be and it ought to enlist for this service the biggest men it can find.

The boys have come back.

## A SWIMMING SCHOOL.

The public education of the youth of the land is becoming more and more complex and comprehensive as its enthusiastic supporters succeed in adding to the curriculum. Not only are children educated in almost every branch of learning, but the boys are taught mechanical arts and the girls domestic science.

It is a little surprising that nobody has yet proposed teaching the children how to swim. While this might be difficult in the townships where the facilities are naturally limited, it would be an easy proposition in cities and large boroughs to provide a central natatorium with a teacher to give instructions once or twice a week during certain seasons of the year, taking on certain sections each day.

Swimming is more than an accomplishment. It is often a life-saving necessity that means life to the swimmer and death to the unfortunate who has never mastered the art. The Young Men's Christian Association was the means of teaching many Connelville boys how to swim. The value of this accomplishment was demonstrated a few days ago when a skill in which two men and a boy were diving captured and both men were drowned while the boy swam safely to shore. Connelville should maintain a swimming school.

Colonel House, who is understood to have been a special envoy of the President to sound the billigerent nations returned with the information that his mission was utterly hopeless. By way of emphasis the ship on which he sailed for home was threatened with a German torpedo before it left English waters. The boys will have to abide with us for the present.

Bill Bryan doesn't have to work for the President. He has been offered a job in a circus already.

The high mortality in the County House may be considered a tragedy, but it is so sad that it is a merit investigation. The Pleasant Standard has been making a strong protest against the treatment of at least one Fayette county patient in the Pleasant Standard hospital. We would suggest that it investigate sanitary conditions at the almshouse, which is in every respect closer home.

## The Weather Man promises fair.

The Germans wonder at Bryan's resignation. Many Americans do not understand it yet. But on this side of the water we are bravely making the most of it.

The summer camp is outfitting. It has thus far laid under cover fearful of being frost-bitten.

We are not only sending machinery and munitions of war to Europe, but some of our best mechanics are going there to enter the employment of the belligerent governments.

J. Ball is approaching the regulation of the House office very closely.

It is said that Villa recognizes his weakness for leadership because of his lack of education. If so that's a long step toward a get-together movement in Mexico.

The bus season is on this week, and the office of a busy young man has been granted to make a man forget about the war in Europe.

The children took a front seat in the churches yesterday.

A verdict of voluntary manslaughter with a recommendation of mercy usually means that the defendant killed his man under strong provocation.

West Newton is a quiet town, but every now and then it develops a tragedy which shows that the current of life runs as deep there as it does along Broadway.

It is hard to enforce the rules of safety against the investigating mind of youth.

Greece is ready to fight, her new Premier announces, if she gets her price. Greece states her position with a later frankness than her neighbors.

It's no wonder Bryan resigned from the Wilson Cabinet in order to appeal his lips. He had a lot on his mind. He's not doing telling the country about it yet.

The luckless telegraph editor now has to struggle with those Italian names, too. But it might have been worse. If he had to pronounce them he would have had lockjaw long ago.

The Yellow Peril captured Thimbletong, held it for two solid hours, and then it was abandoned. It is a feat of arms was seldom known before.

## Michigan

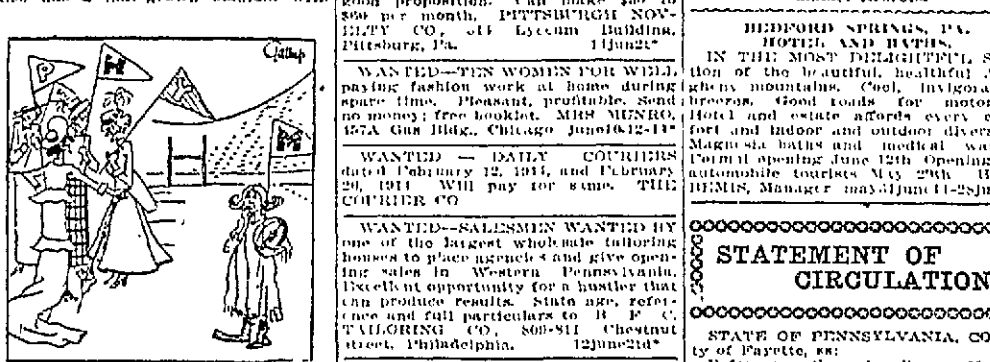

By GEORGE FITCH,  
Author of "At Good Old Stewart."

Michigan was the first of the modern state universities to become great and to get an established name out of itself.

It was formerly located in the West at Ann Arbor and moved East a few years ago and can usually be found hanging around the business manager of the Harvard South and Oceanic for a pleasant job. It was once champion of the West in almost all branches of athletics, but has exchanged that position for that of Cinderella of the East.

Michigan was founded in 1817 and was the first college west of the Allegheny to attain an enrollment of 4,000 students. It now has over 10,000 students in its ranks in the country. It has \$2,000,000 a year to spend and if it keeps growing will be noticed by Yale and Princeton some day.

The University of Michigan is about the size of the rest of Ann Arbor with a Michigan National Guard thrown in and is a mammoth and imposing institution. It has many fine buildings, including an auditorium with an organ so large that the price of lots can be successfully inflated upon it. It also has a half-grown stadium with

Cinderella of the East.  
"Welcome, Harvard," built into it in red letters. The Athletic Association is now hunting for better half, however.

Michigan has graduated more students than any university in America. This month it spilled its 29,000th alumna into the clammy and indifferent world. It is also noted for the number of its alumni who show their way to front seats. Michigan sends more graduates to Congress than any other college. It has never had a president, but it has produced some terrific players who got about three times as much press notice as a modest and retiring chief executive.

Michigan is co-educational but not to excess. Its principal houses are James T. Ansell, who planted it deeply in the map with president and Telling II. Von, who planted it with equal depth in the sporting pages of the press. Its colors are maize and blue, its motto, "Go East, Young Man," and its principal ambition is to accommodate so weak a football team that Harvard will consent to play it again.

## Exchange Etchings

The Johnstown Leader protests in the name of the children against the proposition of the Mayor for a noble and justly Fourth of July celebration. The Mayor ought to be content to make it safe and sane.

The Greensburg Tribune congratulates the people of Pennsylvania on the passage of the law permitting convicts to work on the highways at the nominal wage of 25 cents per day, but says there are many who would rather be in prison who never worked and who do not want to work, and that these should be reached by a law of some kind.

#### B. & O. TEAM WINS

Evening One Shop Defeated by Evening Two Shop 3 to 2.

The Baltimore Orioles defeated the Boston Red Sox Saturday in an exciting game featured by the pitching of both teams. However, the former having 10 and the latter 13 strikeouts. The home club took the lead in the second due to errors and held the same until the fifth when the Baltimore Orioles got busy and scored two on a home run and two singles. Boston was pulled out of bad holes by two fast double plays executed by the infield. Errors did the same for Boston in the eighth and the score remained 2 to 1 until the eleventh when Fisher forced Gilbert at second, stole second and third and came home when take catcher threw wild in attempting to cut him down.

#### TO PLAY OFF THE

Married and Single Men Will Again Attempt to Play; Picnic on 10th.

The Married and Single baseball teams of the Young Men's Bible Class of the Methodist Episcopal Church will play off the game this evening at 8 o'clock. The home club was to have been played Friday evening, but only four members of the married men showed up. The game has been standing for some time, a 2-5 score having been made on the West Side grounds several weeks ago.

On the Fourth of July the members of the Young Men's Bible Class will hold a picnic at Sixth Ave. on the South Side. The Epworth League will probably be invited to spend the day with the class. Sports will be featured and another game of ball between the married and single men will be played.

Reister Takes First Game.

Reister defeated the Mount Brotherhood team in the first game of the annual series in a brilliant battle. Errors by the visitors resulted in three unearned runs for Reister, while the visitors scored their lone tally on an error. Reister pitched a brilliant ball, striking out eleven men, while John Cole whiffed six. This was Reister's ninth straight victory.

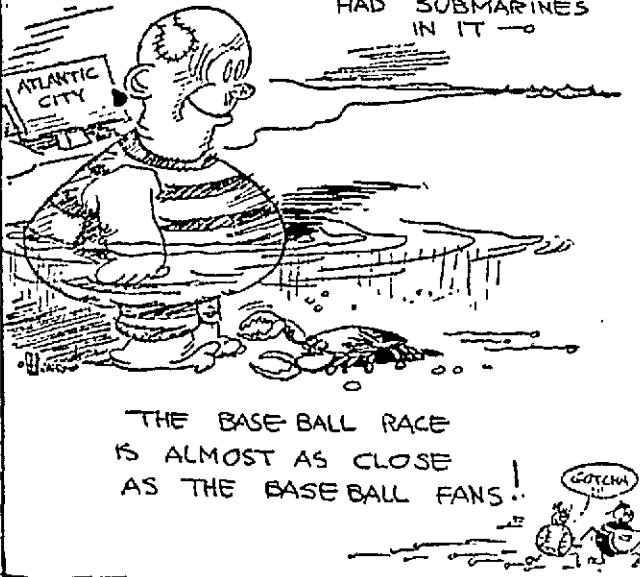

Davidson Wins at Feds.

The Davidson Feds defeated the Davidson Blue Saturday afternoon on the Davidson grounds 2-1. The game was contested all the way, but Davidson took the lead and held it. Any teams desiring games with the Davidson Feds write to Alex Stew, box 247, Davidson.
